

Red Mountain Freeway Project Public Open House

Thursday May 11, 2006

6:30 p.m. to 8:00 p.m.

May 2006

Salk Elementary School

ADOT

Pulice Construction, Inc. (Pulice) is currently under contract with the Arizona Department of Transportation (ADOT) to construct the Red Mountain Freeway between Power Road and US 60. The Central Arizona Project (C.A.P.) Canal work is a very confined area for construction activities. Risks of accident and injury to the public and workers are higher where traffic must be maintained through a construction zone.

Closures Proposed for Safety and Savings

Rather than detouring McKellips Road traffic for a full year, Pulice is proposing to close McKellips Road to all but local access traffic for 7 1/2 months. The closures would:

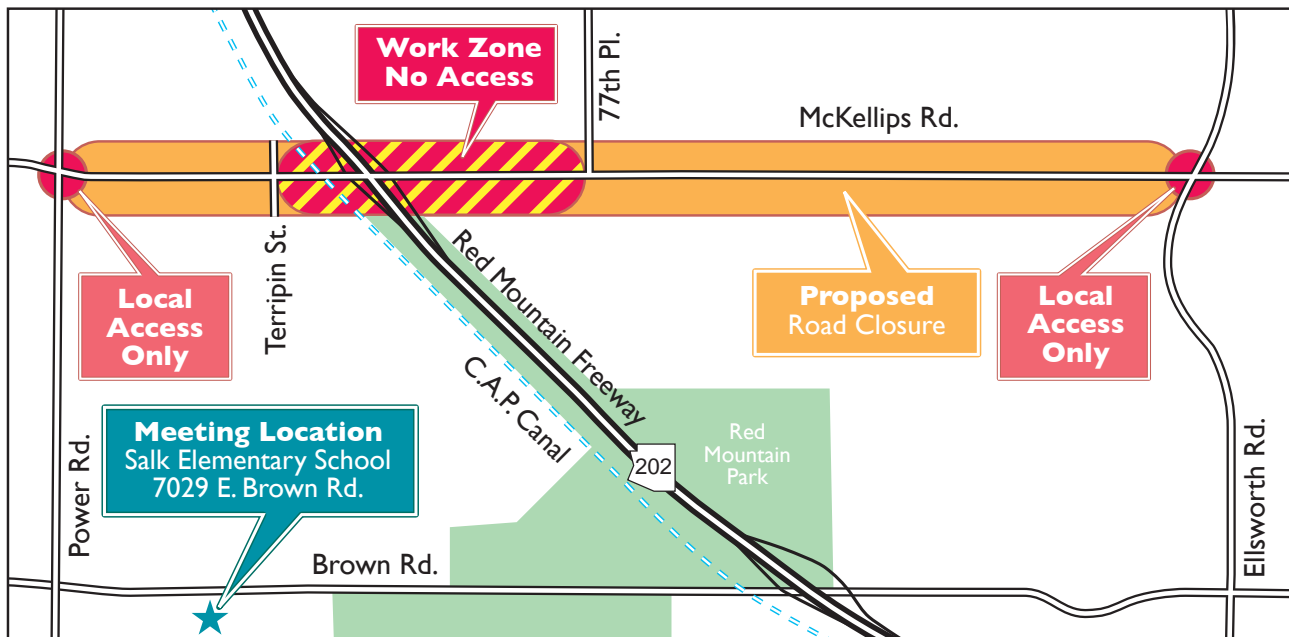

- Reduce the uncertainty that comes with temporary closures and constant traffic pattern changes.

- Minimize interaction between the public and construction traffic
- Make construction more efficient
- Reduce the construction cost
- Increase safety for the traveling public in the construction zones

Pulice will install traffic signal and monitoring equipment to improve traffic flow on adjacent streets and intersections. The City of Mesa, ADOT, and Pulice will all share in cost savings from this more efficient and safe proposal.

We Want to Hear from You

Please join us Thursday, May 11 from 6:30 p.m. to 8:00 p.m. for an open house at Salk Elementary School, 7029 E. Brown Rd. to meet with the project team, talk about the proposed closures, and provide your input.

For more information call Brock Barnhart, ADOT Office of Communication and Community Partnerships.
